***DETAILED ACTION***

1. This action is responsive to communications: original application filed on 09/02/2003.
2. Claims 1-35 are currently pending in this application. Claims 1, 9, 15, 22, 30, and 36 are independent claims.

***Election/Restrictions***

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-8 and 22-29, drawn to providing authorization and security for electronic documents, classified in class 726, subclass 2.
  - II. Claims 9-14 and 30-35, drawn to storing electronic document in the network storage location, classified in class 715, subclass 501.1.
  - III. Claims 15-21 and 36-42, drawn to using of a Boolean operation for identifying electronic documents, classified in class 707, subclass 2.
4. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, invention I has separate utility such as requiring an authorization code previously specified within one of the metadata attributes before allowing the electronic document to be retrieved; invention II has

separate utility such as accessing a network storage location across a publicly accessible network; and invention III has separate utility such as identifying a selection of a portion of the third set of electronic documents.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
6. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Maikhanh Nguyen whose telephone number is (571) 272-4093. The examiner can normally be reached on Monday - Friday from 9:00am – 5:30 pm. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Heather Herndon can be reached at (571) 272-4136.
